

COMPLETE JOB VISIBILITY

In today's competitive climate, being able to respond quickly to the continuously changing demands of your customers is critical. In order to provide a superlative customer service, your job-shop operations need to be streamlined, efficient and visible.

Being able to respond quickly to a customer's request on the status of a job in a timely fashion is so important in ensuring customer retention. Being able to track and optimise a job through your processes will allow you to better control delivery times ultimately helping you win more business. JobPRO offers you a solution to job visibility, providing you with a suite of tools that give you complete visibility into your jobs on your shop floor.

01 Job Workflows
Easily track jobs through different workflows within JobPRO - providing instant visibility into the status of jobs on the shop floor.

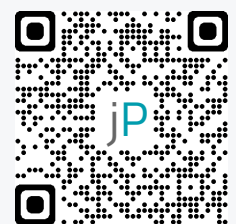

02 Consistent Quotations
JobPRO enforces the consistency of your job activity estimates ensuring your team are creating accurate consistent quotes.

03 User Management
JobPRO logs each users actions within the system - providing insights into employee productivity and full job auditability.

04 Full ERP Integration
Seamless integration means that JobPRO ensures all costs and invoices are posted to your ERP.

JobPRO will bring real visibility to your job production processes, shop-floor operations and employee activities - allowing you more control and ultimately improved customer service.
